Yes. There are comments that need to be removed before they are published. I can make a clean set now if that is helpful.

Before I do that, Aaron, are you aware of any information or comments in the spreadsheets on the SharePoint that we would be making sure are removed before loading them to FDMS at the time of proposal and making them available to the public?

Aaron,

Please find attached EPA's responses to the November 10, 2016, interagency comments in response to EPA's most recent submittal under EO 12866 and 13563 on the EPA proposed rule entitled, "Federal Implementation Plan for Existing Oil and Natural Gas Sources; Uintah and Ouray Indian Reservation in Utah" (RIN 2008-AA02). EPA's responses are provided as responses to both the general and specific inline comments in the draft Regulatory Impact Analysis and in the separate document with additional interagency comments. I have also attached a redline strikeout version of the draft proposed FIP containing revisions made in response to certain interagency comments.

Please let me know if you have any comments or questions.
